Contents

Volume 84 (1992)

PHYSIOLOGY AND BIOCHEMISTRY

Specificity of induced systemic resistance as elicited by ethephon and tobacco mosaic virus in tobacco
by X.S. Ye, S.Q. Pan and J. Kuc (Lexington, KY) 1–9

Reduction of nuclease activity released from germinating pollen under conditions used for pollen electrotransformation
by S.L. Van Wert and J.A. Saunders (Beltsville, MD) 11–16

Chitinase, chitosanase and β-1,3-glucanase activities in *Allium* and *Pisum* roots colonized by *Glomus* species
by E. Dumas-Gaudot, J. Grenier, V. Furlan and A. Asselin (Dijon, France; Québec, Canada) 17–24

Purification and properties of *N*-acetyl-β-D-glucosaminidase from *Hevea brasiliensis* latex
by R. Giordani, S. Benyahia, M. Teissère and G. Noat (Marseille, France) 25–34

Characterization of UDP-glucose:solanidine glucosyltransferase and UDP-galactose:solanidine galactosyltransferase from potato tuber
by A. Bergenstråhle, E. Tillberg and L. Jonsson (Uppsala, Sweden) 35–44

Sucrose metabolism in mango fruit during ripening
by M. Castrillo, N.J. Kruger and F.R. Whatley (Caracas, Venezuela; Oxford, UK) 45–51

Cercospora beticola toxin: a reassessment of some in vitro effects
by P. Aducci, M.L. Cozzella, D. Di Giorgio, V. Fogliano and M. Marra (Rome, Italy) 53–57

Soluble and wall-bound invertases in strawberry fruit
A.P. Ranwala, C. Suematsu and H. Masuda (Hokkaido, Japan) 59–64

Factors influencing the in vitro production of radiolabeled taxol by Pacific yew, *Taxus brevifolia*
by G.A. Strobel, A. Stierle and F.J.G.M. van Kuijk (Bozeman, MT) 65–74

Interaction of extracellular β-1,3-glucanase and pectic substances in cell wall matrix of cultured carrot
by F. Kurosaki, Y. Tokitoh and A. Nishi (Toyama, Japan) 75–82

CELL AND TISSUE STUDIES IN VITRO

Fluorescent lipid peroxidation products and antioxidant enzymes in tissue cultures of *Vitis vinifera* L.
by E.E. Benson and K.A. Roubelakis-Angelakis (Crete, Greece) 83–90

Further evidence that lipoxygenase activity is required for arachidonic acid-elicited hypersensitivity in potato callus cultures
S.F. Vaughn and E.C. Lulai (East Grand Forks, MN) 91–98

GENERAL

Abscisic acid induction of elongase activity, biosynthesis and accumulation of very long chain monounsaturated fatty acids and oil body proteins in microspore-derived embryos of *Brassica napus* L. cv Reston
by L.A. Holbrook, J.R. Magus and D.C. Taylor (Saskatchewan, Canada) 99–115

Book Review 117

PHYSIOLOGY AND BIOCHEMISTRY

Induction by chromium ions of chitinases and polyamines in barley (*Hordeum vulgare* L.) and rape (*Brassica napus* L. ssp. *oleifera*)
S. Jacobsen, M.Z. Hauschild and U. Rasmussen (Lyngby and Roskilde, Denmark) 119–128

Partial purification and properties of the sesquiterpenc β-selinene cyclase from *Citrofortunella mitis* fruits
L. Belingheri, A. Cartayrade, G. Pauly and M. Gleizes (Talence, France) 129–136
Plant microsomal phospholipases exhibit preference for phosphatidylcholine with oxygenated acyl groups
A. Banaś, I. Johansson and S. Stymne (Siedlce, Poland; Uppsala, Sweden) 137–144
Effect of nitrogen nutrition on nitrate and nitrite reductase, glutamine synthetase, glutamate synthase and glutamate dehydrogenase in the CAM plant *Kalanchöe lateritia* Engl.
I. Santos and R. Salema (Porto, Portugal) 145–152
Copurification and characterisation of poppy seed phosphatase and phosphoprotein phosphatase activities
R.P-T. Chung and G.M. Polya (Bundoora, Australia) 153–162
Occurrence of phosphorylating and non-phosphorylating $NADP^+$-dependent glyceraldehyde-3-phosphate dehydrogenases in photosynthetic organisms
M.I. Mateos and A. Serrano (Seville, Spain) 163–170

GENETICS AND MOLECULAR BIOLOGY
Effects of abiotic stresses on cyclophilin gene expression in maize and bean and sequence analysis of bean cyclophilin cDNA
J. Marivet, P. Frendo and G. Burkard (Strasbourg, France) 171–178
Analysis by PCR of the number of homologous genomic sequences to α-tubulin in maize
L. Montoliu, J. Rigau and P. Puigdomènech (Barcelona, Spain) 179–185
A *Brassica napus* mRNA encoding a protein homologous to phospholipid transfer proteins, is expressed specifically in the tapetum and developing microspores (Short Communication)
G.D. Foster, S.W. Robinson, R.P. Blundell, M.R. Roberts, R. Hodge, J. Draper and R.J. Scott (Leicester, UK) 187–192

CELL AND TISSUE STUDIES IN VITRO
Stimulation of benzyladenine-induced in vitro shoot organogenesis in *Cucumis melo* L. by proline, salicylic acid and aspirin
K. Shetty, G.A. Shetty, Y. Nakazaki, K. Yoshioka, Y. Asano and K. Oosawa (Tsukuba Science City and Kawasaki, Japan) 193–199
Steroid substances in the *Yucca gloriosa* L. cell and tissue culture and their formation during morphogenesis
M.K. Gogoberidze, M.N. Mamaladze and N.E. Zambakhidze (Tbilisi, USSR) 201–207
Somatic embryogenesis from immature cotyledons of an elite Darjeeling tea clone
T.B. Jha, S. Jha and S.K. Sen (Calcutta, India) 209–213
A novel approach for chili pepper (*Capsicum annuum* L.) plant regeneration: shoot induction in rooted hypocotyls
L.L. Valera-Montero and N. Ochoa-Alejo (Irapuato, México) 215–219

GENERAL
Involvement of nuclear DNA-dependent RNA polymerases in potato spindle tuber viroid replication: a reevaluation
I.-M. Schindler and H.-P. Mühlbach (Martinsried, Germany) 221–229

Corrigendum 231
